

MEET IMPACT STORIES

#4. SURVIVING A BRIGHT STUDENT AND HER FAMILY

The Case

One of MEET members came to know of a 25-year girl from Virar studying PH.D. Unfortunately, she was diagnosed T.B. a year back but due to lack of funds could not afford medical treatment. MEET not only fully financed her studies but also helped her take up proper treatment referring to a good doctor.

The Outcome

From bed-ridden and critical condition, she started responding to the treatment. She gained strength both physically and mentally and committed to start her PH.D. studies soon. MEET assured her to fund the entire cost of treatment over the 18 months course in cooperation with another NGO. ***It's rebirth of my child and a savior of our family!*** Exclaimed her overwhelmed mother expressing gratitude to MEET.

Are You touched by the real story of bringing a bright girl literally back to life?

At MEET India Foundation, we come across many such cases of people in dire need of medical treatment. A timely help can not only help the needy patient but also survive a family. Please collaborate with us to reach out them and change their lives for the better.

Donations are eligible for education under section 80G of the income Tax Act as well as registered under CSR-1 with the Ministry of Corporate Affairs.

MISSION PAYBACK

It is every person's obligation to put back into the world at least equivalent of what he/she takes out of it.

- Albert Einstein
